

Honey Bears Nursery

Safeguarding and Child Protection Policy

At Honey Bears, we work with children, parents, external agencies and the community to ensure the welfare and safety of children and to give them the very best start in life. Children have the right to be treated with respect, be helped to thrive and to be safe from any abuse in whatever form.

We support the children within our care, protect them from maltreatment and have robust procedures in place to prevent the impairment of children's health and development. In our setting we strive to protect children from the risk of radicalisation and we promote acceptance and tolerance of other beliefs and cultures (please refer to our inclusion and equality policy for further information). Safeguarding is a much wider subject than the elements covered within this single policy, therefore this document should be used in conjunction with the nursery's other policies and procedures. Safeguarding children is everybody's responsibility. At ***Honeybears nursery*** all staff, students and visitors are made aware of and adhere to, the policy.

The setting's Designated Safeguarding Lead's (DSL's) are Justine Myles-Hutton Carrianna Baker and Claire Jukes , Deputy DSL's for the setting are Shamey Farzana, Loni Sayers and Tayla Meddings

This policy works alongside these other specific policies to cover all aspects of child protection:

- Online safety
- Human Trafficking and Modern Slavery
- Prevent Duty and Radicalisation and no platform policy
- Domestic Violence,
- Looked After Children
- Monitoring staff behaviour
- Social networking
- Mobile phone and electronic device use
- Safe recruitment of staff
- Disciplinary
- Grievance
- Promoting positive behaviour
- Low level concerns

Legal framework and definition of safeguarding

- Children Act 1989 and 2004
- Childcare Act 2006

- Safeguarding Vulnerable Groups Act 2006
- Children and Social Work Act 2017
- The Statutory Framework for the Early Years Foundation Stage (EYFS) 2024
- Working together to safeguard children 2024
- Keeping children safe in education 2024
- What to do if you're worried a child is being abused 2015
- Counter-Terrorism and Security Act 2015
- Data Protection Act 2018
- Inspecting Safeguarding in Early years, Education and Skills settings 2019
- Prevent Duty 2015 (updated December 23)
- Domestic abuse act 2021

Safeguarding and promoting the welfare of children, in relation to this policy is defined as:

- Protecting children from maltreatment
- Preventing the impairment of children's mental and physical health or development
- Ensuring that children are growing up in circumstances consistent with the provision of safe and effective care and
- Taking action to enable all children to have the best outcomes.

Child protection is an integral part of safeguarding children and promoting their overall welfare. In this policy, child protection shall mean:

- The activity that is undertaken to protect specific children who are suffering, or are at risk of suffering, significant harm.

To safeguard children and promote their welfare we will:

- Develop a safe culture where staff are confident to raise concerns about professional conduct
- Ensure all staff are able to identify the signs and indicators of abuse, including the softer signs of abuse, and know what action to take
- Share information with other agencies as appropriate.

We promote:

- Always listening to children
- Positive images of children
- Children developing independence and autonomy as appropriate for their age and stage of development
- Safe and secure environments for children
- Tolerance and acceptance of different beliefs, cultures and communities
- British values
- Providing intervention and help for children and families in need.

We have a duty to act quickly and responsibly in any instance that may come to our attention. If in any doubt about what constitutes a safeguarding concern, refer to the

Designated Safeguarding Lead (DSL). If there is a concern, never do nothing (Laming, 2009), always do something, including sharing information with any relevant agencies. Safeguarding is everybody's responsibility.

Guiding Principles

These are the 7 guiding principles of safeguarding, as stated by Birmingham Safeguarding Children **Partnership** (found in Right Help Right time);

- Have conversations and listen to children and their families as **early** as possible.
- Understand the child's lived experience.
- Work **collaboratively** to improve children's life experience.
- Be **open**, honest and transparent with families in our approach.
- **Empower** families by working with them.
- Work in a way that builds on the families' **strengths**.
- Build **resilience** in families to overcome difficulties.

In line with the BSCP business improvement plan 2019-2021 we strive to continually improve our child protection procedures and strengthen further our multi-agency working practices.

Policy intention

To safeguard children and promote their welfare we will:

- Create an environment to encourage children to develop a positive self-image
- Provide positive role models and develop a safe culture where staff are confident to raise concerns about professional conduct
- Ensure all staff are able to identify the signs and indicators of abuse, including the softer signs of abuse, and know what action to take
- Encourage children to develop a sense of independence and autonomy in a way that is appropriate to their age and stage of development
- Provide a safe and secure environment for all children
- Promote tolerance and acceptance of different beliefs, cultures and communities
- Help children to understand how they can influence and participate in decision-making and how to promote British values through play, discussion and role modelling
- Always listen to children
- Provide an environment where practitioners are confident to identify where children and families may need intervention and seek the help they need
- Share information with other agencies as appropriate, by having strong multi-agency links with Health Visitors, Children Centres Workers, Family Support workers and Social Workers.

The nursery is aware that abuse does occur in our society and we are vigilant in identifying signs of abuse and reporting concerns. Our practitioners have a duty to protect and promote the welfare of children. Due to the many hours of care we are providing, staff may

often be the first people to identify that there may be a problem. They may well be the first people in whom children confide information that may suggest abuse or to spot changes in a child's behaviour which may indicate abuse.

Our prime responsibility is the welfare and well-being of each child in our care. As such we believe we have a duty to the children, parents and staff to act quickly and responsibly in any instance that may come to our attention. This includes sharing information with any relevant agencies such as local authority services for children's social care, family support, health professionals including health visitors or the police. All staff will work with other agencies in the best interest of the child, including as part of a multi-agency team, where needed.

All staff must be aware of the guidance issued by Birmingham Safeguarding Children Partnership in Right Help Right Time, and procedures for Early Help.

The nursery aims to:

- Keep the child at the centre of all we do providing sensitive interactions that develops builds children's well-being, confidence and resilience. We will support children to develop an awareness of how to keep themselves safe, healthy and develop positive relationships.
- We ensure all staff, students and volunteers have the necessary knowledge and skills to carry out their duties and are confident to implement these policy and procedures on an ongoing basis to support them in promoting and safeguarding the welfare of children. This is achieved through recruitment and induction processes and by offering ongoing training and support to all staff, appropriate to their specific role, in line with the criteria set out in Annex C of the EYFS.
- Ensure staff are trained right from induction to understand the child protection and safeguarding policy and procedures, are alert to identify possible signs of abuse (including the signs known as softer signs of abuse), understand what is meant by child protection and are aware of the different ways in which children can be harmed, including by other children (child on child) through bullying or discriminatory behaviour. Staff are trained to be aware of ACEs to support children's mental health.
- g professional development ethos to ensure training is ongoing through in-house staff meetings, and staff accessing our online training system and through external attendance at mandatory training (child protection, DSL 1 day and 2 day, Paediatric First Aid). Staff will evaluate the training they have received and the impact of this training will be monitored and discussed at supervisions and disseminated through staff meetings to the whole staff team.
- Be aware of the increased vulnerability of children with Special Educational Needs and Disabilities (SEND) and other vulnerable or isolated families and vulnerabilities in families; including the impact of toxic trio on children and Adverse Childhood Experiences (ACE's).
- Ensure that all staff feel confident and supported to act in the best interest of the child, maintaining professional curiosity around welfare of children and share information and seek the help that the child may need

- Ensure that all staff are familiar and updated regularly with child protection training and procedures and kept informed of changes to local/national procedures, including thorough annual safeguarding newsletters and updates
- Make any child protection referrals in a timely way, sharing relevant information as necessary in line with procedures set out by the Birmingham Safeguarding Children's Partnership (BSCB)
- Ensure that information is shared only with those people who need to know in order to protect the child and act in their best interest
- Keep the setting safe online using appropriate filters, checks and safeguards, monitoring access at all times and maintaining safeguards around the use of technology by staff, parents and visitors in the setting. – please see Online Safety Policy
- Ensure that children are never placed at risk while in the charge of nursery staff by providing a vigilant culture at all times through strong leadership and by adhering to our Safer Recruitment procedures and whistleblowing procedures.
- Identify changes in staff behaviour and act on these as per the Code of Conduct
- Take any appropriate action relating to allegations of serious harm or abuse against any person working with children or living or working on the nursery premises including reporting such allegations to LADO, Ofsted and other relevant authorities including the local authority.
- Ensure parents are fully aware of child protection policies and procedures when they register with the nursery and are kept informed of all updates when they occur, parents are issued with the Nursery Safeguarding and Child Protection Policy on their Child's admission to the nursery and any updates the parents are informed by newsletters which are posted on our website or by nursery information letters.
- Regularly review and update this policy with staff and parents where appropriate and make sure it complies with any legal requirements and any guidance or procedures issued by the Birmingham Safeguarding Children's Partnership (BSCP)

We will support children by offering reassurance, comfort and sensitive interactions. We will devise activities according to individual circumstances to enable children to develop confidence and self-esteem within their peer group and support them to learn how to keep themselves safe.

Unless our concerns relate to child abuse, we will in other circumstances seek to support families in accordance with RHRT and seek to undertake an EHA with parental consent and in accordance with BSCP procedures.

If we suspect child abuse we will contact CASS and complete a request for support form.

Types of abuse and particular procedures followed

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by harming them or by failing to act to prevent harm. Children may be abused within a family, institution or community setting by those known to them or a stranger. This could be an adult or adults, another child or children.

What to do if you're worried a child is being abused (advice for practitioners) 2015.

The signs and indicators listed below may not necessarily indicate that a child has been abused, but will help us to recognise that something may be wrong, especially if a child shows a number of these symptoms or any of them to a marked degree.

The 4 Main Forms of Abuse are:

SEXUAL
PHYSICAL
EMOTIONAL
NEGLECT

Indicators of child abuse

- Failure to thrive and meet developmental milestones
- Fearful or withdrawn tendencies
- Unexplained injuries to a child or conflicting reports from parents or staff
- Repeated injuries
- Unaddressed illnesses or injuries
- Significant changes to behaviour patterns.

Softer signs of abuse as defined by National Institute for Health and Care Excellence (NICE) include:

Emotional states:

- Fearful
- Withdrawn
- Low self-esteem.

Behaviour:

- Aggressive
- Oppositional habitual body rocking.

Interpersonal behaviours:

- Indiscriminate contact or affection seeking
- Over-friendliness to strangers including healthcare professionals
- Excessive clinginess, persistently resorting to gaining attention
- Demonstrating excessively 'good' behaviour to prevent parental or carer disapproval

- Failing to seek or accept appropriate comfort or affection from an appropriate person when significantly distressed
- Coercive controlling behaviour towards parents or carers
- Lack of ability to understand and recognise emotions
- Very young children showing excessive comforting behaviours when witnessing parental or carer distress.

Physical Abuse

A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child. **These are not usual childhood injuries and should always be logged on Cr8's and Cr10's and Body Maps monitored and discussed with the Designated Safeguarding Lead (DSL). The DSL will then take further action by contacting CASS**

All children can suffer injuries during their early years as they explore and develop. If an explanation of how a child received their injury doesn't match the injury itself or if a child's injuries are a regular occurrence or there is a pattern to their injuries then we will report our concerns and log these with the nursery manager.

Action needs to be taken if staff have reason to believe that there has been a physical injury to a child, including deliberate poisoning, where there is definite knowledge or reasonable suspicion that the injury was inflicted or knowingly not prevented. These symptoms may include bruising or injuries in an area that is not usual for a child, e.g. fleshy parts of the arms and legs, back, wrists, ankles and face.

Child-on-child abuse

Child-on-child abuse is also known as peer-on-peer abuse; children are included as potential abusers in our policies. Child-on-child abuse may take the form of bullying, physically hurting another child, emotional abuse or sexual abuse. Reporting procedures in these instances remain the same although additional support from relevant agencies may be required to support both the victim and the perpetrator. Children who develop harmful behaviours are also likely to be victims of abuse or neglect.

If we have any concerns regarding child on child abuse **We will seek advice by contacting CASS**

Sexual Abuse

Sexual abuse involves forcing, or enticing, a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or

grooming a child in preparation for abuse. Sexual abuse can take place online and technology can be used to facilitate offline abuse. Adult males do not solely perpetrate sexual abuse; women can also commit acts of sexual abuse, as can other children.

Action needs to be taken if the staff member has witnessed an occasion(s) where a child indicated sexual activity through words, play, drawing, had an excessive preoccupation with sexual matters or had an inappropriate knowledge of adult sexual behaviour or language. This may include acting out sexual activity on dolls/toys or in the role play area with their peers, drawing pictures that are inappropriate for a child, talking about sexual activities or using sexual language or words. The child may become worried when their clothes are removed, e.g. for nappy changes.

If a child is being sexually abused you may see both emotional and physical symptoms.

Emotional signs:

- Being overly affectionate or knowledgeable in a sexual way inappropriate to the child's age
- Personality changes such as becoming insecure or clingy
- Regressing to younger behavior patterns such as thumb sucking or bringing out discarded cuddly toys
- Sudden loss of appetite or compulsive eating
- Being isolated or withdrawn
- Inability to concentrate
- Lack of trust or fear of someone they know well, such as not wanting to be alone with a carer
- Becoming worried about clothing being removed
- Suddenly drawing sexually explicit pictures or acting out actions inappropriate for their age
- Using sexually explicit language

Procedure:

- The adult should reassure the child and listen without interrupting if the child wishes to talk
- The observed instances will be detailed in a confidential report (CR8)
- The observed instances will be reported to the DSL
- **The matter will be referred to the C.A.S.S (see reporting procedures).**

Emotional abuse

Working Together to Safeguard Children (2018) defines emotional abuse as the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person.

It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.

Signs and indicators may include:

- Physical, mental and emotional development lags
- Sudden speech disorders
- Overreaction to mistakes
- Extreme fear of any new situation
- Neurotic behavior (rocking, hair twisting, self-mutilation)
- Extremes of passivity or aggression
- Appear unconfident or lack self-assurance.

Action will be taken if the staff member has reason to believe that there is a severe, adverse effect on the behaviour and emotional development of a child, caused by persistent or severe ill treatment or rejection.

This may include extremes of discipline where a child is shouted at or put down on a consistent basis, lack of emotional attachment by a parent, or it may include parents or carers placing inappropriate age or developmental expectations upon them. Emotional abuse may also be imposed through the child witnessing domestic abuse and alcohol and drug misuse by adults caring for them.

This type of abuse is harder to identify as the child is not likely to show any physical signs.

We will monitor this using Cr8's and 10's and follow RHRT procedures, looking at an early help assessment to support the child and family

Neglect

Action should be taken if the staff member has reason to believe that there has been any type of neglect of a child (for example, by exposure to any kind of danger, including cold, starvation or failure to seek medical treatment, when required, on behalf of the child),

which results in serious impairment of the child's health or development, including failure to thrive.

Signs may include a child persistently arriving at nursery unwashed or unkempt, wearing clothes that are too small (especially shoes that may restrict the child's growth or hurt them), arriving at nursery in the same nappy they went home in or a child having an illness or identified special educational need or disability that is not being addressed by the parent. A child may also be persistently hungry if a parent is withholding food or not providing enough for a child's needs.

Neglect may also be shown through emotional signs, e.g. a child may not be receiving the attention they need at home and may crave love and support at nursery. They may be clingy and emotional. In addition, neglect may occur through pregnancy as a result of maternal substance abuse.

We will monitor this using Cr8's and CR10's and follow RHRT procedures, looking at an early help assessment to support the child and family

Female Genital Mutilation

FGM can also be known as Female Genital Cutting. FGM is a procedure where the female genital organs are injured or changed and there is no medical reason for this. It is frequently a very traumatic and violent act for the victim and can cause harm in many ways. The practice can cause severe pain and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother; and/or death (definition taken from the Multi-agency Statutory Guidance on Female Genital Mutilation)

The procedure may be carried out shortly after birth and during childhood as well as adolescence, just before marriage or during a woman's first pregnancy and varies widely according to the community.

FGM is child abuse and is illegal in the UK. It can be extremely dangerous and can cause:

- Severe pain
- Shock
- Bleeding
- Infection such as tetanus, HIV and hepatitis B and C
- Organ damage
- Blood loss and infections
- Death in some cases

If you have concerns about a child relating to this area, the DSL should contact C.A.S.S. in the same way as other types of physical abuse. There is a mandatory duty to report to police any case where an act of female genital mutilation appears to have been carried out on a girl under the age of 18, we will ensure this is followed in our setting.

Virginity testing

Virginity testing, also referred to as hymen, '2-finger' or vaginal examination, is an inspection of the female genitalia, intended to determine whether a woman or girl has had vaginal sexual intercourse.

For the purposes of the Health and Care Act 2022, virginity testing is any examination (with or without contact) of the female genitalia intended to establish if vaginal intercourse has taken place. This is irrespective of whether consent has been given.

The position of the World Health Organization and the Royal College of Obstetricians and Gynaecologists (RCOG) is that virginity tests have no scientific merit or clinical indication as there is no known examination that can prove whether a woman has had vaginal intercourse **we will ensure any identification or disclosure of this abuse in young adults or older children are reported by contacting C.A.S.S.**

Breast Ironing/ Flattening

Breast ironing also known as "breast flattening" is the process where young girls' breasts are ironed, massaged and/or pounded down through the use of hard or heated objects in order for the breasts to disappear or delay the development of the breasts entirely. It is believed that by carrying out this act, young girls will be protected from harassment, rape, abduction and early forced marriage. Although this is unlikely to happen to children in the nursery due to their age, **we will ensure any identification or disclosure of this abuse in young adults or older children are reported by contacting C.A.S.S.**

Breast Ironing/Flattening is a form of physical abuse and can cause serious health issues such as:

- Abscesses
- Cysts
- Itching
- Tissue damage
- Infection
- Discharge of milk
- Dissymmetry of the breasts
- Severe fever.

Fabricated OR Induced illness

This is also a type of physical abuse. This is where a child is presented with an illness that is fabricated by the adult carer. The carer may seek out unnecessary medical treatment or investigation. The signs may include a carer exaggerating a real illness or symptoms,

complete fabrication of symptoms or inducing physical illness, e.g. through poisoning, starvation, inappropriate diet. This may also be presented through false allegations of abuse or encouraging the child to appear disabled or ill to obtain unnecessary treatment or specialist support. **This needs to be monitored closely using CR8's and 10's and following our RHRT procedures**

Child sexual exploitation (CSE)

Keeping Children Safe in Education (2022) describes CSE as: CSE occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology. CSE can affect any child or young person (male or female) under the age of 18 years, including 16 and 17 year olds who can legally consent to have sex. It can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity and may occur without the child or young person's immediate knowledge (e.g. through others copying videos or images they have created and posted on social media).

Signs and indicators may include:

- Physical injuries such as bruising or bleeding
- Having money or gifts they are unable to explain
- Sudden changes in their appearance
- Becoming involved in drugs or alcohol, particularly if you suspect they are being supplied by older men or women
- Becoming emotionally volatile (mood swings are common in all young people, but more severe changes could indicate that something is wrong)
- Using sexual language that you wouldn't expect them to know
- Engaging less with their usual friends
- Appearing controlled by their phone
- Switching to a new screen when you come near the computer
- Nightmares or sleeping problems
- Running away, staying out overnight, missing school
- Changes in eating habits
- Talk of a new, older friend, boyfriend or girlfriend
- Losing contact with family and friends or becoming secretive
- Contracting sexually transmitted diseases.

We will be aware of the possibility of CSE and the signs and symptoms this may manifest as. If we have concerns we will follow the same procedures as for other concerns and we will record using Cr8's and 10's and refer as appropriate to C.A.S.S

Child Criminal Exploitation (CCE)

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or the threat of violence. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country forced to shoplift or pickpocket, or to threaten other young people. Some of the following can be indicators of CCE:

- Children who appear with unexplained gifts or new possessions;
- Children who associate with other young people involved in exploitation;
- Children who suffer from changes in emotional well-being;
- Children who misuse drugs and alcohol;
- Children who go missing for periods of time or regularly come home late; and
- Children who regularly miss school or education or do not take part in education

Adult sexual exploitation

- As part of our safeguarding procedures we will also ensure that staff and students are safeguarded from sexual exploitation.

County Lines

The National Crime Agency (NCA) describe county lines as a term used to describe gangs and organised criminal networks involved in exporting illegal drugs from big cities into smaller towns, using dedicated mobile phone lines or other form of 'deal line.' Customers will live in a different area to where the dealers and networks are based, so drug runners are needed to transport the drugs and collect payment.

Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in a number of locations including schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and care homes.

Signs and indicators to be aware of include:

- Changes in the way young people you might know dress
- Unexplained, sometimes unaffordable new things (e.g. clothes, jewellery, cars etc.)
- Missing from home or schools and/or significant decline in performance
- New friends or relationships with those who don't share any mutual friendships with the victim or anyone else
- May be carrying a weapon
- Receiving more texts or calls than usual
- Sudden influx of cash, clothes or mobile phones
- Unexplained injuries
- Significant changes in emotional well-being
- Young people seen in different cars/taxis driven by unknown adults
- Young people seeming unfamiliar with your community or where they are
- Truancy, exclusion, disengagement from school
- An increase in anti-social behaviour in the community
- Gang association or isolation from peers or social networks.

If we recognise any of these signs, we will report our concerns as per our reporting process.

Cuckooing

Cuckooing is a form of county lines crime. In this instance, the drug dealers take over the home of a vulnerable person in order to criminally exploit them by using their home as a base for drug dealing, often in multi-occupancy or social housing properties.

Signs and symptoms include:

- An increase in people, particularly unknown people, entering or leaving a home or taking up residence
- An increase in cars or bikes outside a home
- A neighbour who hasn't been seen for an extended period
- Windows covered or curtains closed for a long period
- Change in resident's mood and/or demeanour (for example, secretive, withdrawn, aggressive or emotional)
- Substance misuse and/or drug paraphernalia
- Increased anti-social behaviour.

If we recognise any of these signs, we will report our concerns as per our reporting process.

Child trafficking and modern slavery

Child trafficking and modern slavery is when children are recruited, moved, transported and then exploited, forced to work or are sold.

For a child to have been a victim of trafficking there must have been:

- *Action*: recruitment, transportation, transfer, harbouring or receipt of a child for the purpose of exploitation
- *Purpose*: sexual exploitation, forced labour or domestic servitude, slavery, financial exploitation, illegal adoption, removal of organs.

Modern slavery includes slavery, servitude and forced or compulsory labour and child trafficking. Victims of modern slavery are also likely to be subjected to other types of abuse such as physical, sexual and emotional abuse.

Signs and symptoms for children include:

- Being under control and reluctant to interact with others
- Having few personal belongings, wearing the same clothes every day or wearing unsuitable clothes
- Being unable to move around freely
- Appearing frightened, withdrawn, or showing signs of physical or emotional abuse.

If we have any concerns regarding child trafficking and modern slavery we will take appropriate action by contacting CASS and the police

Forced marriage

A forced marriage is defined as ‘a marriage in which one, or both spouses, do not consent to the marriage but are coerced into it. Duress can include physical, psychological, financial, sexual and emotional pressure.’

Where incidents of forced marriage are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If it is suspected that a **forced marriage** is being planned, then any concerns must be reported in line with our safeguarding procedures.

Honour based abuse (HBA)

HBA is described as ‘incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing.’ (*Keeping children safe in education*, 2022). Such abuse can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their ‘honour’ code. It is a violation of human rights and may be domestic, emotional and/or sexual abuse such as being held against their will, threats of violence or actual assault. It often involves wider family networks or community pressure and so can include multiple perpetrators.

Signs and symptoms of HBA include:

- Changes in how the child dresses or acts, such as not ‘western’ clothing or make-up
- Visible injuries, or repeated injury, with unlikely explanations
- Signs of depression, anxiety or self-harm
- Frequent absences
- Restrictions on friends or attending events.

Contextual safeguarding-

As young people grow and develop they may be vulnerable to abuse or exploitation from outside their family. These extra-familial threats might arise at school and other educational establishments, from within peer groups, or more widely from within the wider community and/or online.

As part of our safeguarding procedures we will work in partnership with parents/carers and other agencies to work together to safeguard children and provide the support around contextual safeguarding concerns.

Domestic Abuse

The Domestic Abuse Act 2021 defines Domestic Abuse as:

Behaviour of a person (A) towards another person (B) is “domestic abuse” if:

- *They A and B are each aged 16 or over and are personally connected to each other*
- *The behaviour is abusive.*

Behaviour is “abusive” if it consists of any of the following:

- *Physical or sexual abuse*
- *Violent or threatening behaviour*
- *Controlling or coercive behaviour*
- *Economic abuse*
- *Psychological, emotional or other abuse*

and it does not matter whether the behaviour consists of a single incident or a course of conduct. “Economic abuse” means any behaviour that has a substantial adverse effect on B’s ability to:

- (a) Acquire, use or maintain money or other property, or*
- (b) Obtain goods or services.*

Please see separate policy domestic abuse, regarding this abuse and signs to look for

If we are concerned that domestic violence is happening within a home and a child is at risk, we will follow our safeguarding policies’ reporting procedures.

Extremism and radicalisation

Under the Counter-Terrorism and Security Act 2015, there is a duty to safeguard vulnerable and at risk children by preventing them from being drawn into terrorism. This is known as the Prevent Duty.

Children can be exposed to different views and receive information from various sources and some of these views may be considered radical or extreme. Radicalisation is the way a

person comes to support or be involved in extremism and terrorism; usually it's a gradual process so those who are affected may not realise what's happening. Radicalisation is a form of harm. The process may involve:

- Being groomed online or in person
- Exploitation, including sexual exploitation
- Psychological manipulation
- Exposure to violent material and other inappropriate information
- The risk of physical harm or death through extremist acts.

For further information visit [The Prevent Duty website](#). We also have a Prevent Duty and Radicalisation and No platform policy in place. Please refer to this for specific details.

If **radicalisation or extremism** is suspected, then any concerns must be reported in line with our safeguarding procedures. This includes reporting concerns to the police.

Online safety

While the growth of internet and mobile device use brings many advantages, the use of technology has become a significant component of many safeguarding issues such as child sexual exploitation and radicalisation.

There are three main areas of risk associated with online safety:

- Content - being exposed to illegal, inappropriate or harmful material such as pornography, fake news, racist or radical and extremist views
- Contact - being subjected to harmful online interaction with other users such as commercial advertising or adults posing as children or young adults
- Conduct - personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images and online bullying

Please refer to the Online Safety policy for further details.

Up skirting/down blousing

Up skirting and down blousing are criminal offences. They involve taking pictures of someone's genitals, buttocks or other intimate images under their clothing without them knowing, either for sexual gratification or in order to humiliate, or distress, the individual.

This is a criminal offence and any such action would be reported following our reporting procedures.

Child abuse linked to faith or belief (CALFB)

Child abuse linked to faith or belief (CALFB) can happen in families when there is a concept of belief in:

- Witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs)
- The evil eye or djinns (traditionally known in some Islamic faith contexts) and dakini (in the Hindu context)
- Ritual or multi murders where the killing of children is believed to bring supernatural benefits, or the use of their body parts is believed to produce potent magical remedies
- Use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation.

This is not an exhaustive list and there will be other examples where children have been harmed when adults think that their actions have brought bad fortune.

Reporting Procedures

All staff have a responsibility to report safeguarding concerns and suspicions of abuse. These concerns will be discussed with the designated safeguarding lead (DSL) as soon as possible.

- Staff will report their concerns to the DSL (in the absence of the DSL they will be reported to the Deputy DSL)
- **Any signs of marks/injuries to a child or information a child has given will be recorded on a CR8 or Log of Concern Sheet and logged on a CR10**
- If appropriate, the incident will be discussed with the parent/carer, such discussions will be recorded and the parent will have access to these records on request
- If there are queries/concerns regarding the injury/information given then the following procedures will take place:

The designated safeguarding lead will:

- Contact Children's Advice Support Service (C.A.S.S) to report concerns and seek advice (if it is believed a child is in immediate danger we will contact the police)
- Inform Ofsted
- Record the information and action taken relating to the concern raised
- Speak to the parents (unless advised not to do so by C.A.S.S.
- The designated safeguarding lead will follow up Children's Advice Support Service (C.A.S.S) if they have not contacted the setting within the timeframe set out in Working Together to Safeguarding Children (2018). We will never assume that action has been taken,

Keeping children safe is our highest priority and if, for whatever reason, staff do not feel able to report concerns to the DSL or deputy DSL they should call Children's Advice Support Service (C.A.S.S)

These contact numbers are displayed above

Responding to a spontaneous disclosure from a child

If a child starts to talk openly to a member of staff about abuse they may be experiencing then staff will:

- Give full attention to the child or young person
- Keep body language open and encouraging
- Be compassionate, be understanding and reassure them their feelings are important. Phrases such as 'you've shown such courage today'
- Take time and slow down: we will respect pauses and will not interrupt the child – let them go at their own pace
- Recognise and respond to their body language
- Show understanding and reflect back
- Make it clear you are interested in what the child is telling you
- Reflect back what they have said to check your understanding – and use their language to show it's their experience
- Reassure the child that they have done the right thing in telling you. Make sure they know that abuse is never their fault
- Never talk to the alleged perpetrator about the child's disclosure. This could make things a lot worse for the child.

(Information taken from NSPCC)

Any disclosure will be reported to the nursery manager or DSL and will be referred to the local authority children's social care team immediately, following our reporting procedures.

Recording Suspicions of Abuse and Disclosures

Staff should make an objective record of any observation or disclosure on a log of concern recording sheet, supported by Justine Myles-Hutton and Carrianna Baker. This record should include:

- Child's name
- Child's address
- Age of the child and date of birth
- Date and time of the observation or the disclosure / location
- Exact words spoken by the child (word for word) and non-verbal communication
- Exact position and type of any injuries or marks seen
- Exact observation of any incident including any concern was reported, with date and time; and the names of any other person present at the time
- Any discussion held with the parent(s) (where deemed appropriate).

These records should be signed by the person reporting this and the DSL who is dealing with the case, dated and kept in a separate confidential file.

If a child starts to talk to an adult about potential abuse it is important not to promise the child complete confidentiality. This promise cannot be kept. It is vital that the child is

allowed to talk openly and disclosure is not forced or words put into the child's mouth. As soon as possible after the disclosure details must be logged accurately. It is not the nursery's role to investigate; it is the role of statutory services to complete this.

It may be thought necessary that through discussion with all concerned the matter needs to be raised with the local authority children's social care team and Ofsted. Staff involved may be asked to supply details of any information/concerns they have with regard to a child. The nursery expects all members of staff to co-operate with the local authority children's social care, police, and Ofsted in any way necessary to ensure the safety of the children.

Staff must not make any comments either publicly or in private about the supposed or actual behaviour of a parent or member of staff.

Informing parents

Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the local authority children's social care team/police does not allow this. This will usually be the case where the parent or family member is the likely abuser or where a child may be endangered by this disclosure. In these cases the investigating officers will inform parents.

Confidentiality

All suspicions, enquiries and external investigations are kept confidential and shared only with those who need to know. Any information is shared in line with guidance from the Birmingham Safeguarding Children's partnership. All staff, students and volunteers are bound by confidentiality and any information will not be discussed out of work, or this will become a disciplinary matter.

The Nursery has due regard to the data protection principles as in the Data Protection Act 2018 and General Data Protection Regulations (GDPR)¹. These do not prohibit the collection and sharing of personal information, even without consent if this would put the child at further risk. We will follow the principles around data collection and information sharing, and ensure any information is recorded and shared in an appropriate way. Please see Confidentiality Policy.

Support to families

The nursery takes every step in its power to build up trusting and supportive relations among families, staff, students and volunteers within the nursery.

The nursery continues to welcome the child and the family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interest of the child.

1

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/721581/Information_sharing_advice_practitioners_safeguarding_services.pdf

Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate in line with guidance of the Birmingham Safeguarding Children's Board with the proviso that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.

Monitoring children's attendance (Birmingham City Council – C.M.E – children missing in education)

As part of our requirements under the statutory framework and guidance documents we are required to monitor children's attendance patterns to ensure they are consistent and no cause for concern.

Parents should please inform the nursery prior to their children taking holidays or days off, and all sickness should be called into the nursery on the day so the nursery management are able to account for a child's absence.

If no call is received then the Officer in charge or Deputy Officer in Charge will then call or text parents in a timely manner, to ensure the child is safe and healthy. If the parents are not contactable then the further emergency contacts will be used to ensure all parties are safe.

Any concerns must be referred to Cass and a police welfare check should be requested. please see our attendance policy for further information.

Where a child is part of a child protection plan, or during a referral process, any absences will immediately be reported to the child's social worker or C.A.S.S.

This should not stop parents taking precious time with their children, but enables children's attendance to be logged so we know the child is safe.

Looked after children

As part of our safeguarding practice we will ensure our staff are aware of how to keep looked after children safe. In order to do this, we ask that we are informed of:

- The legal status of the child (e.g. whether the child is being looked after under voluntary arrangements with consent of parents or on an interim or full care order)
- Contact arrangements for the biological parents (or those with parental responsibility)
- The child's care arrangements and the levels of authority delegated to the carer by the authority looking after him/her
- The details of the child's social worker and any other support agencies involved
- Any child protection plan or care plan in place for the child in question.

Please refer to the Looked After Children policy for further details.

Staffing and volunteering

Our policy is to provide a secure and safe environment for all children. We only allow an adult who is employed by the nursery to care for children and who has an enhanced clearance from the Disclosure and Barring Service (DBS) to be left alone with children. We

will obtain enhanced criminal records checks (DBS) for all volunteers and do not allow any volunteers to be unsupervised with children.

All staff will attend child protection training and receive initial basic child protection training during their induction period. This will include the procedures for spotting signs and behaviours of abuse and abusers/potential abusers, recording and reporting concerns and creating a safe and secure environment for the children in the nursery. During induction staff will be given contact details for the LADO, C.A.S.S. and Ofsted(whistleblowing@ofsted.gov.uk)to enable them to report any safeguarding concerns, independently, if they feel it necessary to do so.

We have named persons within the nursery who take lead responsibility for safeguarding and co-ordinate child protection and welfare issues, known as the Designated Safeguarding Leads (DSL) as stated above. There is always at least one designated person on duty during all opening hours of the setting.

These designated persons receive comprehensive training at least every two years and update their knowledge on an ongoing basis.

The nursery DSL's liaise with the C.A.S.S and will undertake relevant training supported by Birmingham Safeguarding Children's Partnership, undertakes specific training, including a child protection training course, and receives regular updates to developments within this field. They in turn support the ongoing development and knowledge update of all staff on the team.

Although, under the EYFS, we are only required to have one designated lead for safeguarding, for best practice and to ensure cover at all times, we have six designated leads in place. This enables safeguarding to stay high on our priorities at all times. There will always be at least one designated lead on duty at all times our provision is open. This will ensure that prompt action can be taken if concerns are raised.

- We provide adequate and appropriate staffing resources to meet the needs of all children – See Safer Recruitment Procedures
- Applicants for posts within the nursery are clearly informed that the positions are exempt from the Rehabilitation of Offenders Act 1974. Candidates are informed of the need to carry out checks before posts can be confirmed. Where applications are rejected because of information that has been disclosed, applicants have the right to know and to challenge incorrect information
- This information is also stated within every member of staff's contract
- We request DBS checks on a 3 yearly basis/or we use the DBS update service (with staff consent) to re-check staff's criminal history and suitability to work with children
- We abide by the requirements safer recruitment practice of the EYFS and any Ofsted guidance in respect to obtaining references and suitability checks for staff, students and volunteers, to ensure that all staff, students and volunteers working in the setting are suitable to do so
- We ensure we receive at least two written references before a new member of staff commences employment with us

- All students will have enhanced DBS checks conducted on them before their placement starts
- Volunteers, including students, do not work unsupervised
- We abide by the requirements of the Safeguarding Vulnerable Groups Act 2006 and the Childcare Act 2006 in respect of any person who is disqualified from providing childcare, is dismissed from our employment, or resigns in circumstances that would otherwise have led to dismissal for reasons of child protection concern
- We have procedures for recording the details of visitors to the nursery and take security steps to ensure that we have control over who comes into the nursery so that no unauthorised person has unsupervised access to the children
- All visitors/contractors will be supervised whilst on the premises, especially when in the areas the children use
- As a staff team we will be fully aware of how to safeguard the whole nursery environment and be aware of potential dangers on the nursery boundaries such as drones or strangers lingering. We will ensure the children remain safe at all times
- The Staff Code of Conduct sits alongside this policy to enable us to monitor changes in behaviours that may cause concern. All staff sign up to this policy too to ensure any changes are reported to management so we are able to support the individual staff member and ensure the safety and care of the children is not compromised
- All staff have access to and comply with the whistleblowing policy which will enable them to share any concerns that may arise about their colleagues in an appropriate manner
- Signs of inappropriate staff behaviour may include inappropriate sexual comments; excessive one-to-one attention beyond the requirements of their usual role and responsibilities; or inappropriate sharing of images. This is not an exhaustive list, any changes in behaviour must be reported and acted upon immediately by reporting to the DSL on duty
- All staff will receive regular supervision meetings where opportunities will be made available to discuss any issues relating to individual children, child protection training and any needs for further support
- We use peer on peer and manager observations in the setting to ensure that the care we provide for children is at the highest level and any areas for staff development are quickly highlighted. Peer observations allow us to share constructive feedback, develop practice and build trust so that staff are able to share any concerns they may have. Any concerns are raised with the designated lead and dealt with in an appropriate and timely manner
- The deployment of staff within the nursery allows for constant supervision and support. The key workers are responsible for their key group of children but always work with another practitioner in any one area. Where children need to spend time away from the rest of the group, safeguards will be put into action to ensure the safety of the child and the adult.

Employees, students or volunteers of the nursery or any other person living or working on the nursery premises

We have a Staff Code of Conduct in place that supports us to monitor staff and changes in their character. Staff are aware of the need to disclose changes to circumstance and use the whistle blowing policy where required.

Public interest disclosure (whistleblowing)

Whistleblowing is the term used when a worker passes on information concerning wrongdoing. All safeguarding allegations, internal or external, current or historical, must be passed on the DSL. We will cooperate fully with the authorities involved and follow any guidance given. See the Whistleblowing policy which outlines our procedures, including where staff may wish to raise concerns about poor or unsafe practice regarding our safeguarding provision. All concerns will be taken seriously by the senior leadership team.

We believe keeping children safe is the highest priority and if, for whatever reason, concerns cannot be reported to the DSL or deputy DSL, or where a staff member feels that their genuine concerns are not being addressed, concerns can be reported anonymously to the LA social services safeguarding children team, the NSPCC, the police, or Ofsted.

Allegations against adults working or volunteering with children

If an allegation is made against a member of staff, student or volunteer or any other person who lives or works on the nursery premises regardless of whether the allegation relates to the nursery premises or elsewhere, we will follow the procedure below.

The allegation should be reported to the DSL on duty. If this person is the subject of the allegation then this should be reported to the another DSL or the owner.

The Local Authority Designated Officer (LADO) and Ofsted will then be informed immediately in order for this to be investigated by the appropriate bodies promptly:

- The LADO will be informed immediately for advice and guidance
- If as an individual you feel this will not be taken seriously or are worried about the allegation getting back to the person in question then it is your duty to contact OFSTED
- The nursery will follow all instructions from the LADO and inform Ofsted and ask all staff members to do the same and co-operate where required.
- If necessary the Police or C.A.S.S will investigate the matter, or the matter may be handed back to the nursery to investigate and provide an outcome
- Support will be provided to all those involved in an allegation throughout the external investigation in line with LADO support and advice
- The nursery reserves the right to suspend any member of staff during an investigation or put a risk assessment in place for the staff member to work in another area of the business (e.g. office duties) whilst the investigation is being carried out.
- All enquiries/external investigations/interviews will be documented and kept in a locked file for access by the relevant authorities
- Unfounded allegations will result in all rights being reinstated
- Founded allegations will be passed on to the relevant organisations including the local authority children's social care team and where an offence is believed to have been committed, the police, and will result in the termination of employment. Ofsted will be notified immediately of this decision. The nursery will also notify the Disclosure and Barring Service (DBS) to ensure their records are updated

- All records will be kept until the person reaches normal retirement age or for 21 years and 3 months years if that is longer. This will ensure accurate information is available for references and future DBS checks and avoids any unnecessary reinvestigation
- The nursery retains the right to dismiss any member of staff in connection with founded allegations following an inquiry
- Counselling will be available for any member of the nursery who is affected by an allegation, their colleagues in the nursery and the parents.

Sharing low-level concerns

On occasion, inappropriate, problematic or concerning behaviour by staff or other adults is observed but does not meet the threshold for significant harm. This may be classed as a 'low-level' concern, although this does not mean that it is insignificant.

We define a low-level concern as:

- Any concern, no matter how small, that an adult working with children may have acted in a way that is inconsistent with our Staff behaviour policy, including inappropriate behaviour outside of work
- A concern that may be a sense of unease or a 'nagging doubt' and does not meet the harm threshold or is serious enough to refer to the LADO.

We encourage a culture of openness, trust and transparency, with clear values and expected behaviour, monitored and reinforced by all staff. All concerns or allegations, however small, will be shared and responded to. All concerns will be shared with the DSL, or other nominated person, as in our reporting procedures. We encourage concerns to be shared as soon as reasonably practicable and preferably within 24 hours of becoming aware of it. However, it is never too late to share a low-level concern.

It is not expected that staff will be able to determine whether the behaviour in question is a concern, complaint or allegation before sharing the information. If the DSL is in any doubt as to whether the information meets the harm threshold, they will consult the LADO.

Occasionally a member of staff may find themselves in a situation which could be misinterpreted or appear compromising to others. If this occurs, staff are encouraged to self-report to the DSL. Equally, a member of staff may have behaved in a manner which, on reflection, falls below the standards set in our Staff behaviour policy. If this occurs, staff are encouraged to self-report to the DSL. We encourage staff to be confident to self-refer and believe it reflects awareness of our standards of conduct and behaviour.

When the DSL receives the information, they will need to determine whether the behaviour:

- Meets, or may meet, the harm threshold (and so contact the LADO)
- Meets the harm threshold when combined with previous low-level concerns (and so contact the LADO)
- Constitutes a 'low-level' concern
- Is appropriate and consistent with the law and our Staff behaviour policy.

The DSL will make appropriate records of all information shared, including:

- With the reporting person
- The subject matter of the concern
- Any relevant witnesses (where possible)
- Any external discussions such as with the LSP or LADO
- Their decision about the nature of the concern
- Their rationale for that decision
- Any action taken.

This constitutes a record of low-level concern. We retain all records of low-level concerns in a separate low-level concerns file, with separate concerns regarding a single individual kept as a chronology. These records are kept confidential and held securely, accessed only by those who have appropriate authority. Records will be retained at least until the individual leaves their employment.

If the low-level concern raises issues of misconduct, then appropriate actions following our Disciplinary procedures will be taken. Records will be kept in personnel files as well as in the low-level concerns file.

Early help services

When a child and/or family would benefit from support but do not meet the threshold for Local Authority Social Care Team, a discussion will take place with the family around early help services.

Early help provides support as soon as a concern/area of need emerges, helping to improve outcomes and prevent escalation onto local authority services. Sometimes concerns about a child may not be of a safeguarding nature and relate more to their individual family circumstances. The nursery will work in partnership with parents/carers to identify any early help services that would benefit your child or your individual circumstances, with your consent, this may include family support, foodbank support, counselling or parenting services.
